

CITY BIN 40

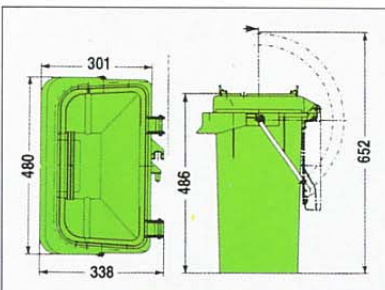

SYSTEM 2002*

The CITY BIN is a further development of the MGB-System for high buildings, narrow Townships and for small households. (pat. pending).

The CITY BIN with its comb can be used in the same lifting devices as the standard MGB's.

The CITY BIN is user friendly due to:

- the ergonomic design
- the recessed carrier handle (Al)
- the stacking possibilities
- its minimum space requirement
- re-cycleable
- easy to clean
