

# K.C.A.- BOX

The K.C.A. Box is a child proof special waste container for small chemical waste (hazardous waste) in households.

The K.C.A. Box was designed for the collection and storage such as Batteries, Paint, Medicine, Solvents and Chemicals.

The K.C.A. Box prevents the illegal disposal and is best used as collect or take system.

The K.C.A. Box is designed in such a way to allow organized storage to suit specific requirements.

The K.C.A. Box is obviously for the future:

- child proof
- resistant against chemical and biological influences
- UV-resistant
- free from Cadmium
- water resistant
- re-cycleable
- with/without Batterybox-slider
  - bin insert
  - inner box
  - rubber seal
  - engraving
